

## **Nina Bandelj**

Nina Bandelj received her MA in Sociology and PhD in Economic Sociology and Organizational Theory from Princeton University, USA. Her doctoral dissertation was awarded the Seymour Martin Lipset Prize from Society for Comparative Research. She completed the International Baccalaureate Program in Ljubljana, Slovenia, and received her BA (summa cum laude, with honors) from Augsburg College, Minneapolis, USA, with majors in Sociology and Communication, and a minor in Business Administration.

Nina Bandelj is a frequent presenter at international conferences and workshops and a guest speaker for business and non-governmental organizations. Her research, which has received support from the American National Science Foundation, the European Union's Commission on Research and MacArthur Foundation, among others, includes studies of non-verbal communication, non-monetary incentives to work in producing job satisfaction, cross-cultural communication for which she received American Midwest Sociological Society Prize, and foreign investment in Central and Eastern Europe for which she received Candace Rogers Award and DBH Foundation Prize. She was selected as the East and Central Europe Postdoctoral Fellow at the Max Planck Institute for the Study of Societies, in Cologne, Germany, and is currently holding a Jean Monnet Fellowship at the Robert Schuman Centre for Advanced Studies, European University Institute, in Florence, Italy.

Author of a number of scientific and professional articles on communication skills, creativity, globalization, economic sociology and management education, and a recipient of several research and teaching scholarships and honors, Nina Bandelj has been a lecturer and a research fellow with IEDC-Bled School of Management since 1997. She has lectured at Princeton University and is currently assistant professor at University of California, where she teaches the required doctoral course on Research Design. In her course, she covers both qualitative and quantitative research methods, many of which she has used in her own research.
